Resident Handbook For Library Services 2017/2018
MBKU Residents,

Welcome to the Marshall B. Ketchum Memorial Library. We hope to be able to serve all your information needs in the coming year. Our enclosed Resident Handbook is designed to help guide you through the process of requesting information. Please take a moment to review it.

You will definitely want to take advantage of our table of contents routing service. Using the list of journals supplied, choose 5 journal titles whose table of contents you would like to see on a regular basis. Simply e-mail us your list right away so that we can start sending your table of contents. Once you receive your table of contents, choose one article per issue that you are interested in reading. Follow the instructions on the journal request form and return your request to us by e-mail. We will then send the article to you.

We also provide you with literature searches. Please provide us with the information on the literature search form (page 17). We will perform the search and provide you with a list of abstracts. From this you can choose articles that will help you with your project. If you choose to send us your complete citations, we will copy and send you up to 15 articles/subject electronically. When requesting articles, be sure to provide us with full citations (author, journal title, volume, issue, and page numbers) so that we can correctly fill your request. We will request as many articles for you through interlibrary loan as possible (within reason!). If you are in the Los Angeles area, and would like to do your own research at the library, we will provide you with a copy/print card. Please call before you visit so that we can have the card ready for you.

Proxy access to all of the subscribed library resources, including full-text journals and databases such as ClinicalKey, Cochrane Library, and MEDLINE Complete, is now available to you. In order to gain access, you must first fill out the Library Resources Form and return it to Kate Garcia, as directed on the form. Once the form is returned to Kate, you will receive a log-in and password to activate your access.

We all look forward to serving you this year. Please send us your updated home and e-mail address as soon as possible. We will respond to your e-mail the same day, letting you know that we have received your request, and give you an estimate as to when you can expect to receive materials or articles.

Sincerely,

Scott Johnson, MLIS, Director of Library Services
Ivan Portillo, MLIS, AHIP, Pharmacy Librarian
Diana Jacobson, MLIS, Serials Librarian
This handbook provides an overview of services from the MBKU library. Please feel free to contact the Library whenever you have an information need.

Regular Library Hours:

<table>
<thead>
<tr>
<th>Day</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sunday</td>
<td>11:00 a.m – 11:00 p.m.</td>
</tr>
<tr>
<td>Monday – Thursday</td>
<td>7:30 a.m. – 11:00 p.m.</td>
</tr>
<tr>
<td>Friday</td>
<td>7:30 a.m. – 5:00 p.m.</td>
</tr>
<tr>
<td>Saturday</td>
<td>9:00 a.m. – 5:00 p.m.</td>
</tr>
</tbody>
</table>

Check the library website for summer and holiday hours

**FOOD IS NOT PERMITTED IN THE LIBRARY! DRINKS ARE PERMITTED IN SPILL-PROOF CONTAINERS.**

### Circulation

<table>
<thead>
<tr>
<th>Books</th>
<th>Students and staff may borrow books for 2 weeks; faculty, residents and administrators for 4 weeks. Two renewals may be made in person, by telephone or e-mail. An MBKU ID card is required.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Reserve</td>
<td>Reserve materials circulate for 2 hours during the day. Items may be checked out overnight within 1 hour before the library closes. A fine of $1.00 per hour will be charged for late returns. All late fines accrue at the top of the hour. There are no holds or waitlists for Reserve materials.</td>
</tr>
<tr>
<td>Journals</td>
<td>Journal volumes are for in-library use only. Access to online journals is available on- and off-campus through proxy access.</td>
</tr>
<tr>
<td>Audiovisuals</td>
<td>Audiovisual materials not on Reserve may be borrowed for 1 week. Cables for TV and Internet access are available for check-out at the Circulation Desk.</td>
</tr>
<tr>
<td>Returns</td>
<td>Borrowers are responsible for materials being returned directly to the library by the due date. There is a book drop inside and outside the library. For lost books, replacement costs plus a processing fee are charged to the borrower.</td>
</tr>
<tr>
<td>Interlibrary Loans</td>
<td>Interlibrary loan service is available at no charge for materials not found in the library. In addition, individuals may use and borrow material from California State University Fullerton’s library by using their MBKU ID card in combination with a letter of introduction which can be obtained from the library staff. CSUF library rules and regulations apply.</td>
</tr>
</tbody>
</table>

### Collection

<table>
<thead>
<tr>
<th>Catalog</th>
<th>The library website contains book, audiovisual and journal holdings of the library. Searches may be done by author, title, subject, etc.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Reference</td>
<td>The Reference collection includes directories, dictionaries, encyclopedias and other basic source materials. Reference is located at the end of the journal stacks. Reference books are for library use only.</td>
</tr>
<tr>
<td>Books</td>
<td>The library collection consists of over 10,000 books in the optometry, physician assistant, and pharmacy disciplines. It is arranged by the Library of Congress classification system.</td>
</tr>
<tr>
<td>Journals</td>
<td>The journal collection consists of 130 current titles and 11,000 bound journal volumes. Arranged alphabetically by title, issues for the current year are displayed near the windows; older issues are located in the journal stacks nearby. Many titles are available electronically, and can be accessed from the online catalog along with title and subject information.</td>
</tr>
<tr>
<td>Databases</td>
<td>All databases, such as MEDLINE Complete, ClinicalKey, PubMed, &amp; the Cochrane Library, are available through the library website. Linkout to full-text articles from PubMed, as long as you access PubMed through the library website.</td>
</tr>
<tr>
<td>Student Research Papers</td>
<td>SCCO student research papers are bound and shelved in the reference section under Southern California College of Optometry Student Research Papers. Indexing is available on the website.</td>
</tr>
<tr>
<td>Recreational Reading</td>
<td>Current copies of popular magazines and paperback books are located in the study lounge.</td>
</tr>
<tr>
<td>Other Services</td>
<td></td>
</tr>
<tr>
<td>Photocopier/Printer</td>
<td>One self-service color photocopy machine and a black and white printer are located in the center of the library. Photocopying is $.10/copy for black and white and $.25/copy for color. Copy/print cards are required for public patrons, and are for sale at the Circulation Desk. Scanning is also available and is FREE. Copyright law governs the photocopying of copyrighted material. A paper cutter, three hole punch, stapler, ruler, scissors and tape are also available at the front desk.</td>
</tr>
<tr>
<td>Computers</td>
<td>Look-up stations are located in the center of the library.</td>
</tr>
<tr>
<td>Telephones</td>
<td>Cell phones should be set to silent in the library. No paging system is available inside the library.</td>
</tr>
<tr>
<td>Library Publications</td>
<td>MBKU Faculty Publications are listed yearly on the library website, and appear monthly in MBKU News. Latest acquisitions are available in the website under the Faculty &amp; Student Pubs page.</td>
</tr>
<tr>
<td>Library Website</td>
<td>The library homepage includes links to many useful resources including full text journals, databases, and websites that are particularly useful to MBKU faculty, residents, students and staff.</td>
</tr>
<tr>
<td>Online Chat</td>
<td>The online chat box on the library website’s homepage gives users the ability to chat in real time with a librarian. We will do our best to answer all library-related questions quickly, and if we’re not in the office, we will e-mail you back on the next business day.</td>
</tr>
</tbody>
</table>
Bibliography Assistance

- Get help with your bibliographies; we can assist you with formatting per author instructions.
- We can also verify your citations by checking appropriate databases.

Classes/Training Sessions

- Schedule a class with our librarians. We can come into your class and share our library resources that can support class assignments.
  - Class examples: Library Orientation, Literature Searching, EndNote.
- Schedule a one on one session in your office with one of our librarians. Learn about computer programs and software, as well as new online web tools.

Library’s Latest Editions

- From the library homepage (www.ketchum.edu/library), click on the New Books link located under the Quick Links section
- See all the newest additions to our collection; we update the list each month.

Literature Search

- Library expert searchers offer advanced support for researchers and faculty conducting various types of literature reviews.
- We will work with you to identify the best approach to your search, as well as the best sources of information.
The library offers a table of contents service to residents. Use the form below to select 5 journal titles from the Current Serials List (contact the library staff for a copy). We will email you the table of contents from each issue of your selected titles as they are made available. Following the directions in the email, you may select an article to receive.

**Note that due to copyright restrictions, you are allowed only one article per table of contents.**

Please email your choices to the library at library@ketchum.edu.

Thanks and enjoy!

List your journal titles here:

2. ____________________________________________
3. ____________________________________________
4. ____________________________________________
5. ____________________________________________
This list provides information about our article databases and other electronic resources available through the library.

These databases provide indexing, abstracts, and often full-text content from a variety of sources, including peer-reviewed journals, magazines, newspapers, conference proceedings, books, and more. When accessing our resources from off-campus, please go through our library homepage. Once you click on a link you will be prompted to login with your Novell/Moodle information.

**PubMed**
Comprises more than 24 million citations for biomedical literature from MEDLINE, life science journals, and online books.
1. MeSH TERMS: vocabulary that PubMed uses to consistently describe articles about the same topic. Ex: cross eyes (Esotropia).
2. Use the Clipboard to Save and export your citations.

**Acland’s Video Atlas of Human Anatomy**
This 3-D anatomy atlas includes real video of new cadavers, and the tissues retain the color, texture, and movements of the living body. The resource also includes practice exams and a glossary.

**Clinical Pharmacology**
This drug reference database is powered by ClinicalKey and has a similar interface. Features include Drug Identifiers, Drug Interaction Reports, and ToxED.

**ClinicalKey**
Our Point-of-care clinical database for physicians and other healthcare professionals. It provides access to a unique combination of medical reference books, medical journals, drug information, and practice guidelines.
1. Create a personal account to be able to use: saved searches, presentation maker, and reading lists.
2. Use the browse menu at the top of the screen to see all content in each section.

**Cochrane Library**
A major resource for evidence-based medicine that integrates clinical expertise with systematic research, especially in relation to the effects of health care.
1. Use the browse by topics menu on the left to see all subjects.
2. View the reviews in Summary, Standard, or Full mode.

**Lexicomp**
Lexicomp is a collection of clinical databases and clinical decision support tools that act as a medical library. Includes information on drugs, diseases, toxicology, patient education, and I.V. compatibility.
**MEDLINE Complete**
This full-text database provides access to over 2,500 biomedical and health journals.
   1. Filter results by subject.
   2. Search for MeSH terms.
   3. Use the image search and sort by photograph, chart, map, or diagram.

**Micromedex**
Evidence based information about drugs, toxicology, diseases, acute care, and alternative medicine to support informed research on clinical and treatment decisions.
   1. Click on My Subscription to see all content provided.
   2. CareNotes provides patient education handouts, discharge instructions, labs and procedure information.

**Primal Anatomy (7 users)**
   1. Jump between sections by using the Anatomy>MRI>Slides>Movies buttons.
   2. Use the Save button to create an image of your current view.

**UpToDate**
An online point-of-care reference tool that gives clinicians quick overviews of medical topics.

**VisionCite (contact library for username and password)**
A journal citation database from the Illinois College of Optometry that indexes over 325,000 articles from the vision science literature.
   1. Click on the IP Verification button to log in.
   2. When searching, select VisionCite Database for the LIBRARY field.
   3. Remember to use the Keep/Kept function to save or e-mail your preferred articles (you need to be logged in the use this feature).

**Visionet (contact library for username and password)**
A highly regarded comprehensive database of optometric and vision literature, from the Southern College of Optometry.
   1. Login to use the saving and emailing features
   2. Choose Visionet Articles in the Search box- SUBMIT
   3. Just remember that anything you save to a list can be viewed or changed by anyone who accesses the database, since we use a shared login.
As a nonprofit library, the M.B. Ketchum Memorial Library is authorized to lend materials to its patrons on a non-profit basis and for non-profit purposes. Materials such as audiovisuals, CD-ROMs, journals, and books are protected by the copyright law of the United States. Any person who makes an unauthorized copy of these materials may be in violation of the copyright law. This institution reserves the right to refuse to fulfill a loan request if, in its judgment, fulfillment of the request would lead to the violation of the copyright law.

Online journals are also copyrighted. Use of many of these resources is governed by license agreements which restrict use to the Southern California College Community and to individuals who use the Marshall B. Ketchum Memorial Library. You must respect the intellectual property rights of the copyright holders when you use these journals. Basically, the use of the copyrighted information found in these journals is for your personal use. You may not remove or alter the authors’ names or the publisher's copyright notices, use the material for commercial use or systematically distribute the material to anyone other than members of the MBKU community. If you have questions concerning these license agreements, please refer to the license information provided for the journal or contact the M.B. Ketchum Memorial Library.
The MBKU policy on classroom copying is based on the guidelines described in H.R. 94-1476, which describes the minimum standards of educational fair use under Section 107 of H.R. 2233. These guidelines remain the same whether each student receives their copy electronically or in paper. Copies placed on Moodle or the Student Shared Folder are subject to these guidelines. Classroom copying should never substitute for the purchase of books or journals, and should never be directed by higher authority. The same item should not be repeatedly copied and used by the same teacher from term to term without permission.

1. SINGLE COPYING FOR TEACHERS
You may make or request a copy of any of the following for your personal use if you are going to use it for your scholarly research, for preparation to teach a class, or for use in teaching:
   a) A chapter from a book
   b) An article from a periodical or newspaper
   c) A short story, short essay or short poem
   d) A chart, graph, diagram, drawing, cartoon or picture from a book, journal or newspaper

2. MULTIPLE COPIES FOR CLASSROOM USE
You may make one copy of each of the above, for each of your students, for classroom use or discussion, without asking permission, as long as the copying meets all of the following:
   a) Is at your instance and inspiration (an unexpected lecture assignment, an essential article has just been published).
   b) You found the material too late to ask permission from the publisher, but need to use the materials now to get the maximum teaching effectiveness for your students.
   c) You may only use one article, one time, and for one course.
   d) You will not make multiple copies of this type more than 9 times during one quarter.
   e) You may not copy more than one article from the same author and not more than three chapters/articles from the same book or journal during one quarter.

You cannot charge your students for classroom copies beyond the actual cost of the photocopying.
You must include a notice of copyright on each student copy.

3. IF PERMISSION NEEDS TO BE OBTAINED, THE INSTRUCTOR SHOULD:
   a) Search for the publication title in Copyright Clearance Center (CCC). Instructions on searching CCC are included in your packet. If MBKU’s academic license does not cover the publication title, follow the steps below:
      o Determine the copyright owner (not always the publisher). With journals, there is usually a website that will take you through the steps of gaining permission.
      o If you have a book, you will find the copyright information on the back of the title page (or verso). Forms are available in the library for mailing requests.
      o The publisher or copyright owner will either:
         • Grant permission without a fee
         • Grant permission upon receipt of a fee
         • Offer to sell reprints of entire issue or book

Please remember that copying is considered unauthorized, and specifically prohibited, if it is a substitute for purchase (e.g., books, journal issues, DVDs, or other materials)
ACADEMIC LICENSE

The MB Ketchum Memorial Library has an Academic License with the Copyright Clearance Center (CCC). This license provides our faculty, residents, and students copyright permission for materials used during the teaching process. Users should search for the title of each resource that they would like to share in their educational pursuits to make sure that the CCC license covers the material in the way that they would like to use it. If the CCC does not cover the material under the Academic license, but will cover the material for an additional fee, users should contact the Library Director. If the material is not covered in either of these cases, then users should seek permission on their own AND follow the Guidelines for Classroom Copying in Not-For-Profit Educational Institutions.

When requesting that copyrighted materials be printed by the MBKU Print Center as part of a course manual or class handout, users should search the CCC to ensure that materials are covered. A signature on the MBKU print request form ensures that the appropriate permission has been obtained.
INSTRUCTIONS

1. Go to the library website (www.ketchum.edu/library) and select the Copyright Clearance Center link located under the Databases section.

2. Type the journal title into either search box.

3. Verify that you have the correct journal title, and look for the green check mark next to the words Academic License. When you click your cursor on the words Academic License, you will see a pop-up window telling you how you can use the article for your course.

5. Verify that you have the correct title and then note the Ø. This title is not covered by our Academic License. Click your cursor on the words Academic License to see an explanation of why this title is not covered. Contact the library so that permissions can be purchased for you.
The Interlibrary Loan (ILL) service enables MBKU students, faculty, and staff to borrow materials from other libraries that are not available at MBKU’s library. This service is free of charge to users who are directly affiliated with MBKU.

Name_________________________ Date ______________________________
E-mail _________________________ Date Needed_______________________

Before requesting an item, be sure to check the MBKU online catalog to see if it is available here at the library. Please have the citation or PubMed printout available when requesting an ILL. A citation should include the following:

**Book Request**

Title_________________________ Year ______________________________
Author ________________________ Edition___________________________

**Article Request**

Title_________________________________________________________________
Author __________________________________________________________________
Journal __________________________________________________________________
Year ______________
Vol. ______________
Issue _____________
Pages _____________

The approximate turnaround time for a request is 5 working days. Because of the waiting period, please plan ahead when ordering through ILL. All ILL requests can be placed in person, by phone or email.
**SAMPLE REFERENCES (CITATIONS)**

*Journal article - single author*

*Journal article - 2 authors. (list the 1st 6 authors followed by et al.)*

*Book*

*Chapter in a book*

*Electronic Material*

*Journal article in electronic format*

*Monograph in electronic format*

*Homepage/Website*

*SCCO Student Research Papers*

The library provides literature searches on health-related topics for current faculty and staff. Please fill out the form below with as much information as possible regarding your research question.

Name_________________________ Date_________________________

Dept_________________________ Date Needed___________________

Describe your research question/topic in a sentence:

Please select some searching filters:

______Last 5 Years
______Last 10 Years
______All years
______Other
______Broad search w/peripheral
citations
______Narrow search, few citations
______English only
______All languages
______Human only
______Human and animal

Please do a preliminary search. List one or two of the articles on your subject and provide: author, title of article, journal, date, vol., and pages.

Purpose of Search:

______Last 5 Years
______Research/Writing/Paper
______Student research paper
______Teaching
______Management/Admin
______Other

www.ketchum.edu/library
PubMed BASICS

PubMed® is the U.S. National Library of Medicine’s (NLM) premiere search system for health information. It is available free on the Internet at: http://pubmed.gov.

PubMed Content

Nearly 25 million citations including:

- Publisher supplied citations that will be analyzed to receive full indexing for MEDLINE if they are biomedical in nature
- In-process citations that have not yet been analyzed and indexed for MEDLINE®
- Indexed for MEDLINE citations of articles from about 5600 regularly indexed journals; MEDLINE makes up nearly 90% of PubMed

PubMed Features

- Sophisticated search capabilities, including spell checker, Advanced Search Builder, and special tools for searching for clinical topics
- Assistance in finding search terms using the MeSH (Medical Subject Heading) database of MEDLINE’s controlled vocabulary
- Ability to store citation collections and to receive email updates from saved searches using PubMed’s My NCBI
- Links to full-text articles, to information about library holdings, and to other NLM databases and search interfaces

Clinical Queries

PubMed Clinical Queries makes it easy to find articles that report applied clinical research. Click on the link from the PubMed homepage, then enter a search term in the box. Click the Search button. Click See all at the bottom of the page to return to PubMed.

Clinical Study Categories displays results by diagnosis, etiology, therapy, etc. Use the drop-down menus to change the category or scope.

Systematic Reviews displays evidence-based medicine citations including systematic reviews, meta-analyses, and guidelines.

Medical Genetics displays citations focused on diagnosis, management, genetic counseling, and related topics. Select All or a specific topic from the drop-down menu.

MeSH Database

[PubMed - indexed for MEDLINE] citations are indexed using a powerful vocabulary called Medical Subject Headings (MeSH).

Use the drop-down search menu to access the MeSH database. Search for a term or concept and click Search. Click on the desired term to view that term (when multiple items are retrieved) and to select subheadings and other options.

Click the Add to Search Builder button on the right side of the page to start a PubMed search. Other MeSH searches may be added. Click the Search PubMed button to complete the search.

Printing, E-mailing, Downloading

After selecting citations (e.g. from checked boxes or Clipboard), identify a format (click on Summary for additional formats) and print from the browser. Alternatively, select from the Send to menu (e.g. Citation Manager creates a file in the MEDLINE format for download into citation management software).

My NCBI

PubMed’s My NCBI feature sets personal preferences, stores both search strategies and citation collections, and creates alerts by offering automatic e-mail updates and RSS Feeds of stored searches. Register for My NCBI by creating a User Name and Password.

Accessing Full-Text

Many PubMed citations offer links to the full-text of article through PMC (a free digital archive of life sciences journal literature), to library holdings, and to publisher websites. Loansome Doc allows registered users to order copies of articles from a medical library. Contact your librarian for details or call your Regional Medical Library at 800-338-7657.

Assistance and Training

Click on the Help link or on PubMed Tutorials from the PubMed homepage.

Funded under contract awarded by the DHHS, NIH, National Library of Medicine, and developed and updated by the NN/LM staff. Reviewed: June 2015. This resource is freely available at: http://nnlm.gov/training/resources/pmtri.pdf

The National Network of Libraries of Medicine® (NN/LM), an outreach program of NLM™, provides assistance and training nationwide. To find a local library, please call 800-338-7657 or go to http://nnlm.gov/members
PubMed Searching

To search PubMed, type a word or phrase into the query box (e.g., a subject, author and/or journal). Then click on the **Search** button or press the **Enter** key. Optionally, combine search terms with connector words: AND, OR, or NOT using upper case letters.

PubMed offers alternative searching options: The **Auto Suggest** drop-down menu appears when entering words; and the **Titles with your search terms** option may appear after a search.

After clicking **Enter** or the **Search** button, PubMed displays a list of results in Summary format. To see more information about these citations, click **Summary** to change how the results are formatted.

**Filters** are available in the left navigation column and may be used to limit or focus searches. Click on a term to activate or deactivate the filter. Multiple filters may be selected.

To reveal additional filter options, click **Show additional filters** or **Customize**. Check desired selections then click the **Show** button.

**Search details** is located in the right navigation column. This box provides information on how PubMed ran the search (i.e. to which MeSH headings and subheadings PubMed mapped a term). PubMed looks first for the entire word or phrase as a MeSH term, next for journal titles, then for authors. PubMed finally searches **All Fields** for the word(s). Update a search by making changes in the Search details box and click **Search** to run the new search strategy.

**Advanced**

The **Advanced** link provides two options to refine a search:

Use the **PubMed Advanced Search Builder** to create a search using AND, OR, or NOT. Apply a specific field to your term by using the drop-down menu. The **Show index list** displays the search field index and the number of citations for each term. Multiple terms selected from the Index list are combined using OR.

**History** tracks and numbers search statements. Click on the numbered link to view a menu of options to combine search statements into a new search with AND, OR, or NOT. The search may also be run, deleted, examined in Details, or saved in My NCBI.

**Similar articles**

This feature searches for citations similar to the one selected. In the Summary format, click on the **Similar articles** link under a citation. When examining a single citation in the Abstract format, select **Similar articles** from the right navigation column.

**Clipboard**

The **Clipboard** feature stores selected citations from one or more searches for eight hours. Select citations by clicking the check box next to them. From the **Send to** menu, select Clipboard; then click the **Add to Clipboard** button. Click on the **Clipboard items** link to view citations. Permanently store citations in PubMed My NCBI **Collections**, also accessed from the **Send to** menu.

**Sensors**

Sensors display results in a shaded area above the regular PubMed search results.

- **Citation Sensor**: matches search terms with citation elements (e.g. blood choi 2009)
- **Gene Sensor**: identifies gene symbols linking to gene citations and databases (e.g. CFTR)
VisionCite is a citation database index of vision-related journal articles developed by the Illinois College of Optometry Library.

Over 313,000 articles from medical, ophthalmic, optic, optometric, and vision-related journals that are currently received in the ICO Library are indexed and are available to search.

The ICO Library keeps the VisionCite database current by regularly indexing over 114 vision-related journals.

It is recommended that VisionCite is used in conjunction with PubMed (Medline). This will enable more complete access to both vision-related historical journal articles, AND current journal information.

**SEARCH RETRIEVAL TECHNIQUES FOR VisionCite:**

- **SAME** - This is the search default. Use all words in the same paragraph.
- **AND** - Use to shrink or narrow a search.
- **OR** - Use to expand a search to include related terms.
- **NOT** - Use to eliminate topics or items already viewed.
- **ADJ** - Use to find words adjacent or next to each other.
- **NEAR** - Use to find words in the same paragraph.
- **$** - Truncation symbol.

**SAMPLE SEARCH STRATEGIES FOR VisionCite:**

- Driving **AND** vision
- Color **OR** colour
- Vision **NOT** visual
- Vision **ADJ** therapy
- Retinal **NEAR** detachment
- Amblyop$ (Contact **ADJ** lens$) **AND** Smith
